Smartainer

Smartainer is a UN-certified flexible intermediate bulk container (FIBC) designed for safe containment of packaging group II and III materials. It provides a compliant, practical alternative to conventional hazardous-waste systems, including drums, wheeled bins, and modified rigid IBCs that often fall short in efficiency and regulatory performance.

-  **1000kg SWL / 6:1 SF**
-  **Printed 2 Colour on lid only.**
-  **UN details in black on 2 sides**
-  **Zip Top, Flat base, 200mu liner, 4x lifting loops**
-  **100 x 100 x 100cm Standard stock size (support bag frame not included)**
-  **Bespoke sizes, colours and printing available to order**
-  **Bag Support Frame can be purchased coated or uncoated.**

Our Smartainers are flexible, versatile, and easy to store, helping you maximise valuable space. Their lightweight design reduces transport emissions and costs, and they can be safely used in restricted or hard-to-access areas.
